

SUMMER 2020

TRUE SILENCE

OSCAR
OSCAR DE LA RENTA

*Solitude and Silence are the driving forces of an Artist.
In an increasingly frenetic world in which access to communications
is immediate and the bustle of the social media shapes our lives
Silence has become a scarce resource, an intangible luxury.*

*In the dreamy atmosphere of ghost towns in the summer, the streets
the squares and the parks reveal themselves visible and passable.
They are places to inspire, to let oneself go with the tranquility
of the rarely frequented sites.*

*Silence, as a travel partner, reveals to us remote and unknown
landscapes where time almost seems to stop to show their beauty
without artifices.*

*We find our inspiration in this exaltation of Silence,
in the poetics of Absence. With the sceneries of Hopper and Wyeth
main exponents of the most suggestive American Realism
and whose cinematographic aesthetics have been transmitted
to contemporary creators such as William Eggleston
or Marcelo Fuentes.*

*We are traveling to uncharted and unique destinations.
We will spot color ranges that will transport us to those secret
paradises in which the calm is the main actor and silence
is a soundtrack only for some lucky ones.*

Oye, hijo mío, el silencio.
Es un silencio ondulado,
un silencio,
donde resbalan valles y ecos
y que inclina las frentes
hacia el suelo.

Federico G.L.

*Listen, my son: the silence.
It's a rolling silence,
a silence
where valleys and echoes slip,
and it bends foreheads
down toward the ground.*
